

RILEM Regional Activities in Japan

RILEM Japan Regional Meeting

Outline

Building Research Institute (BRI) is organizing RILEM Japan Regional Meeting for the RILEM members in Japan. The member of the meeting is all RILEM members in Japan and the meeting is held once a year. This meeting was held since 1978 and in this January we organized the 28th RILEM Japan Regional Meeting. The meeting is an half a day meeting and the members can exchange their knowledge and information related to RILEM activities.

The meeting is organized by the BRI and the chair of the meeting is the National Delegate of Japan.

Members

The RILEM Japan Regional Meeting is composed of 60 RILEM Individual Members, 6 RILEM Associate Members and 2 RILEM Titular Members. The members of the RILEM Japan Regional Meeting are from research institutes, testing labs, universities, material producing companies, general constructors, etc. The Japan Concrete Institute (JCI) and the Architectural Institute of Japan (AIJ) are also the members of this meeting.

Role of BRI and the National Delegate of Japan

1. Introduce the RILEM latest information to the RILEM members in Japan.
The latest information includes what was decided at the General Council, the activities of the TCs, TAC, MAC and EAC.
2. Update the list of the RILEM members in Japan.
3. Recruit new members.
4. Hold the RILEM Japan Regional Annual Meeting.
5. Update the website of RILEM for the RILEM members in Japan. (under work)
6. Prepare the Japanese leaflet of RILEM. (under work)
7. Provide umbrella to formalize network between JCI, AIJ and other organizations.

8. Offer opportunities for the members to have a discussion for the new TCs.
9. Offer opportunities for the members to discuss other business.

Additional Information

The RILEM General Council of the 57th RILEM Annual Week was organized by BRI in 2004.
