

CALL FOR PAPERS

Original papers are sought in the following areas related to the field of **fiber reinforced concrete (FRC)**:

1. Rheology and Early-Age Properties
2. Mechanical Properties
3. Smart FRC, Nano-Fibers and Nano-Tubes
4. Long-Term Properties and Durability
5. Analytical and Numerical Models
6. Codes and Standards
7. Innovative Structural Systems and Design
8. Structural and Industrial Applications
9. Case studies
10. Any other relevant topic

The conference is intended for a world-wide audience of researchers and practitioners with backgrounds in structural and/or materials engineering. It includes structural and construction engineers, builders and building consultants, construction industry personnel, academics, researchers, students, product manufacturers, material suppliers, project managers and contract administrators, asset managers, government infrastructure authorities and others.

IMPORTANT DATES

Submission of 200-word abstracts: **August 30, 2015**

Acceptance notification to authors: **September 30, 2015**

Submission of full draft manuscripts: **December 31, 2015**

Acceptance notification to authors: **April 30, 2016**

Submission of final manuscripts: **May 30, 2016**

CALL FOR PAPERS

9TH RILEM INTERNATIONAL SYMPOSIUM ON FIBER REINFORCED CONCRETE

Pacific Gateway Hotel

Vancouver, BC, Canada

September 19-21, 2016

INTRODUCTION

Since 1980, RILEM International Symposia on Fiber Reinforced Concrete (BEFIB) have remained the most prestigious conferences on Fiber Reinforced Concrete (FRC) and have produced a critical mass of most cited and influential papers in the field. BEFIB2016 builds on this success. In spite of significant research, our understanding in a number of areas remains severely limited—reasons why fiber use in concrete remains low and full potential of FRC remains unexplored. BEFIB2016 will strive to bring various sectors of the industry on a common platform so significant cross-fertilization of ideas can occur, new concepts can be developed and new applications of FRC explored. Please come and be a part of this exciting experience and help us developed the industry further.

VENUE

BEFIB 2016 will be held at the Pacific Gateway Hotel in Vancouver, British Columbia, Canada. The hotel is situated close to the Vancouver International Airport with complementary shuttle service available to hotel guests. Vancouver, the host city of the 2010 Winter Olympic games, is known for its scenic views, mild climate and friendly people. The city is located approximately twenty minutes from the airport. Transport is available by skytrain, bus, or rental car from the airport. Shopping opportunities, lively downtown restaurants and night life are popular tourist attractions.
