Welcome to the UHPC2024-China

Ultra-high performance concrete (UHPC) is progressively used in engineering for its ultra-high strength, high toughness and excellent durability. After the 1st conference (2016) in Changsha, the 2nd one in Fuzhou (2018) and the 3rd one in Nanjing (2020), the 4th ACF/HNU international conference on UHPC materials and structures will be held in Changsha between October 24-27, 2024. This conference aims at promoting the research, design and applications of UHPC. Researchers, engineers, and construction experts in the related field are welcomed.

Conference Topics

- Raw Materials and Mixture Design
- Rheological Properties and Flowability
- Preparation and Mechanical Properties
- Volume Stability and Durability
- Microstructure and Fiber Reinforcement
- Behaviors of Elements and Structures
- New Structures and Design Principles
- Construction technology and Applications
- Guidelines and Specification
